

# KAPPA

BOILER SYSTEM

## *The BIASI KAPPA Series Cast Iron Boiler*

- *85.5% AFUE Cast Iron Atmospheric Gas Boiler*
- *Outputs from 91,000 to 182,000 BTU/HR*
  - *Low-Mass, Wet Leg*
  - *Limited Lifetime Warranty*

**QHT**  
INCORPORATED  
*The New Style of Warmth*

The BIASI KAPPA is a wet leg cold-start, atmospheric gas boiler with a unique and high quality, GG20 Cast Iron heat exchanger. The boiler is encased in thick layer of insulation to reduce heat loss, noise and running costs. These features enable Kappa to supply heat quickly to the heating zones and hot water tank resulting in reduced fuel usage. ASME and CSA certified for safety, fuel efficiency and durability.

Utilizing “Lo-NOx” multigas, stainless steel burner with intermittent pilot combined with electronic reset, the KAPPA will reduce your home’s fuel bills while lowering emissions of harmful pollutants.

The BIASI KAPPA is easy to install with supply and return fittings on both sides. The front and top casing panels have “push pins” for easy casing removal to expose the burner and control panel. The electrical, safety, and control devices are housed in the control panel.

The BIASI KAPPA boiler has a pre-wired control panel including operating and alert lights.

The Honeywell S9361 controller manages all components including the motorized stack damper, VR8204 valve, temperature limit, circulator, and reset functions.

You’ll enjoy confidence from the KAPPA boilers Limited Lifetime Warranty.

### Technical Advantages

- CSA Listed
- Supply and Return Piping From Either Side
- Wet Leg Heat Exchanger Design
- ASME Rated to 58 PSI
- GG20 Cast-Iron Construction
- Limited Lifetime Warranty on Boiler Block
- Industry Standard Components

### Technical Components

- Stainless Steel Burners
- Intermittent Electronic Pilot Ignition
- Honeywell Control and Gas Valve
- Motorized Stack Damper
- Grundfos Circulator
- Standard Boiler Trim

### Warranty

Limited Lifetime Warranty
