

KONTEC

Tube Radiators

Elegant Architectural Design Radiators
Outputs Up To 9,906 BTU/HR
Available in Horizontal and Vertical Configurations
Side Panels and Top Grille Included

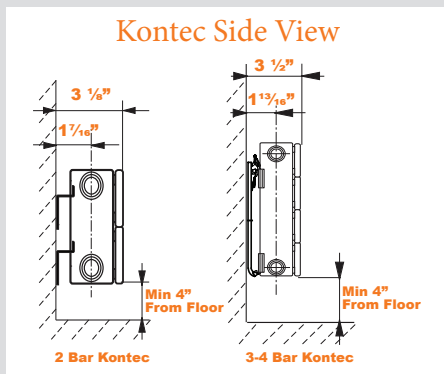

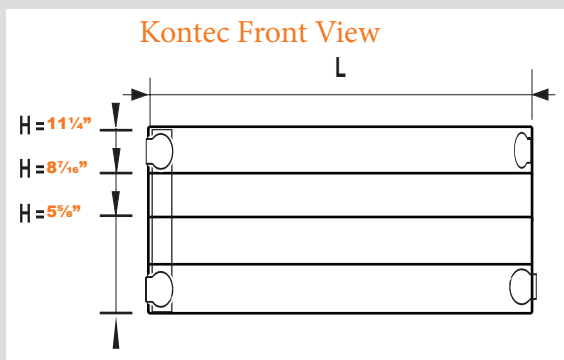

KONTEC TUBE RADIATORS

The “Kontec” architectural, flat tube, radiators are ideal for providing warmth, style and efficiency to your living space. With their horizontal arrays of flattened tubes, Kontec radiators will supply comfortable heat at low flow temperatures eliminating drafts and cold spots. Convector fins welded to the tubes on the back of the radiator help increase heat transfer from the boiler water to the room space. Kontec panels are available in a variety of sizes to fit almost any requirement.

Kontec Actual Dimensions

Horizontal Panels

All Kontec Radiators have 4 - 1/2" side connections

Radiator Model	Type	Tubes	Height (in)	Length (in)	Output (BTU/HR) @ 180°F	Output (BTU/HR) @ 140°F	Weight (lbs)	Water Content (gal)
